	<ul style="list-style-type: none"> • Processing artifacts • Lithic analysis • Processing flotation 	<ul style="list-style-type: none"> • B.S. elementary education, Indiana University, Bloomington. • 9 hours graduate work in anthropology, Indiana University, Bloomington 	
Experience Summary Information			
<p>Laboratory Technician and Lithic Analyst</p> <p>Cultural Resource Analysts, Inc. 2003 – present</p>			
<p>Mr. Banschbach serves as a Laboratory Technician and Lithic Analyst. He is experienced in prehistoric archaeology, with some experience with historic archaeology. As a Laboratory Technician, he has been responsible for the processing of incoming project artifacts. He is experienced in the processing of flotation materials from a variety of site types and prepares them for analysis. He is also responsible for the analysis of prehistoric lithic artifacts, which entails size-grading, raw material-typing, and reduction stage determination. The analysis section of the project report is then written by Mr. Banschbach. He has analyzed lithic material from sites in Indiana, Kentucky, Ohio, and West Virginia (including the Argosy project in Indiana and the Marmet project in West Virginia). As a Field Technician, he is experienced in a variety of excavation styles, including shovel test probes, test units, and trenching on various phase I, II, and III projects.</p> <p>Phase III Experience:</p> <ul style="list-style-type: none"> • Mr. Banschbach worked as a field technician for Indiana State University from 1998-2000 on the Caesars Project in Harrison County, Indiana. <p>Phase II Experience:</p> <ul style="list-style-type: none"> • Mr. Banschbach worked as a field technician for Indiana State University from 1997-1998 on the Caesars Project in Harrison County, Indiana. Mr. Banschbach also worked as a field tech for CRAI from September 2005 to March 2006 on the Argosy Project in Dearborn County, Indiana. <p>Other Experience:</p> <ul style="list-style-type: none"> • In addition to his phase I, II, and III experience, Mr. Banschbach has also worked as a laboratory technician at Indiana State University in Terre Haute, Indiana, and at HMB Engineering in Frankfort, Kentucky. • Mr. Banschbach also taught students excavation and laboratory techniques for the Sayre School archaeological project at Waterwild Farm in Fayette County, Kentucky.
