Mr. Bundy serves as a Cultural Resource Specialist, Lithic Specialist, and Principal Investigator on cultural resource projects throughout the Southeastern United States. Paul's experience working with a variety of federal agencies and private sector clients in a number of roles allows him the perspective to assist with projects at all levels. Mr. Bundy has experience with assembling and coordinating teams, development of research designs, scopes of work, and budgets. He has organized and managed large (multi-year) and small-scale cultural resource projects in Arkansas, Georgia, Illinois, Indiana, Kentucky, Louisiana, Mississippi, Missouri, Oklahoma, Tennessee, and Texas. This includes Phase I Archaeological Surveys (covering over 40,000 acres), Phase II Archaeological Testing projects (including Late Archaic, Early Woodland, Middle Woodland, Late Woodland, Fort Ancient, and Mississippian sites), and Phase III Data Recoveries/Research Excavations (including Early, Middle, and Late Archaic; Middle and Late Woodland; Mississippian; and Late 19th-Early 20th Century sites). Mr. Bundy served as Director of Operations for CRA's Louisiana Office coordinating all projects in the region from 2009–2016. He now serves in a broader role assisting all of CRA's offices.

His initial focus in archaeology was on prehistoric lithic industries and late prehistoric ceramics in the Central Mississippi Valley, but working on prehistoric and historic sites throughout the Southeastern United States, he has broadened horizons and enjoys learning from and working with specialists to address the full range of cultural resources in the region. He has presented papers at state and regional meetings and has authored and co-authored publications.
