<p>Ms. Heavrin began employment as an Architectural Historian for Cultural Resource Analysts, Inc.'s Lexington, Kentucky, office in 2009. Liz currently serves as Kentucky Project Manager for CRA's Cultural and Architectural History Department. In this capacity she coordinates with state and federal agencies and private sector clients, prepares scopes of work and man-hour estimates, establishes project schedules, coordinates and supervises the field and archival efforts of architectural historians/historians, and provides technical review of cultural historic reports. As an architectural historian, Liz is also responsible for researching and documenting historic properties by conducting archival research and field surveys, evaluating the significance of historic properties, and preparing written reports that provide summary findings and recommendations for various types of cultural historic projects. Liz has served as field supervisor, author, and principal investigator for cultural historic surveys for the transportation, communications, and energy sectors; researched and authored several National Register of Historic Places nominations; and completed creative mitigation projects. Prior to employment at CRA, Liz worked as an architectural historian conducting Section 106 compliance surveys for cellular communications towers and writing National Register of Historic Places nominations. In addition, while in graduate school, Liz pursued a number of different internship opportunities, serving as an architectural history teaching assistant, resident manager of the Bluegrass Trust's Pope Villa, summer field surveyor for the Kentucky Heritage Council, and intern to the Winchester, Kentucky Historic Preservation Commission.</p> <p>Additional Training:</p> <ul style="list-style-type: none"> How to Prepare an Interpretive Program.
