Edward C. Moore, MA		Principal Investigator	
<p>NPS Professional Qualification:</p> <ul style="list-style-type: none"> • Archaeologist <p>Email: ecmoore@crai-ky.com</p> <p>Registered Professional Archaeologist [in renewal]</p>	<p>Specific Duties:</p> <ul style="list-style-type: none"> • Fieldwork Supervision • Prehistoric sites specialist • Report writing/editing • Proposal Development 	<p>Education and Training:</p> <p>M.S., Institute for Quaternary Studies, University of Maine</p> <p>B.S., Anthropology and Geology, University of Oregon, Eugene</p>	
Experience Summary Information			
<p>Staff Archaeologist II/ Principal Investigator</p> <p>Cultural Resource Analysts, Inc. 2015 – present</p>	<p>Senior Archaeologist</p> <p>TRC Solutions</p> <p>2007–2015; 2002–2005</p> <p>Archaeological Research Consultants 1994–2002</p>	<p>Principal Investigator</p> <p>Louis Berger Group, Inc., 2005–2007</p>	
<p>Mr. Moore serves as a Principal Investigator and Field Director specializing in Prehistoric Archaeology. He has worked in the field of Cultural Resources Management for over 20 years. He performs all aspects of archaeological investigation from project planning to completion of project reports and has been involved in numerous archaeological projects designed to identify cultural resource inventories, sample archaeological sites, and mitigate damage through intensive data recovery. In addition to successfully managing cultural archaeological projects, he has expertise in lithic analyses of prehistoric archaeological assemblages, geologic interpretation of lithic remains, and geomorphic assessment of archaeological site environments. He has managed and/or conducted projects in the Northeast, Mid-Atlantic, and Midwest regions.</p>			
<p>SELECTED PROJECTS</p> <p>Northeast</p> <ul style="list-style-type: none"> ▪ Archaeological Assessment of the Turner Falls and North Mountain Pumped Storage Projects (FERC No.'s 1889 and 2485), Connecticut River in Massachusetts, New Hampshire, and Vermont. Designed a sensitivity model for predicting locations of Precontact archaeological resources along a 20-mile section of the Connecticut River as part of a hydroelectric license application. For FirstLight Hydro Generating Company. 2014 ▪ Archaeological Survey of the Northeast Kingdom Connector Project, Essex County, Vermont. Surveyed a proposed 22-mile upgrade to an existing transmission line corridor. For Vermont Electric Cooperative. 2014. ▪ Archaeological Survey of the West Buxton Hydroelectric Project (FERC No. 2531), York County, Maine. Surveyed a 1.5 mile section of the Saco River for Precontact archaeological resources as part of a hydroelectric license application. For Brookfield White Pine Hydro LLC. 2013. ▪ Archaeological Survey of the Section 54 Rebuild Project, Oxford and Franklin Counties, Maine. Surveyed a proposed 25-mile upgrade to an existing transmission line corridor. For Central Maine Power. 2013. ▪ Archaeological Assessment of the 115 kV Line W144 Project, Rockingham and Hillsborough Counties, New Hampshire. Assessed the sensitivity for Precontact resource along a proposed 6-mile transmission line. For Public Service of New Hampshire. 2013. 			

- **Data Recovery of Site 69.24, Starks, Maine.** Excavated 50 m² of a deeply stratified site along the Kennebec River containing cultural components dating from the Early Woodland through Contact periods. For NextEra Energy Resources. 2012.
- **Archaeological Survey of the Berwick Reinforcement Project, York County, Maine.** Surveyed two proposed transmission lines totaling 18 miles in length. For Central Maine Power. 2012.
- **Archaeological Survey of the Section 103 Rebuild Project, Cumberland County, Maine.** Surveyed a proposed 6-mile upgrade to an existing transmission line corridor. For Central Maine Power. 2012.
- **Archaeological Survey of the Section 187 Rebuild Project, York and Cumberland Counties, Maine.** Surveyed a proposed 12-mile upgrade to an existing transmission line corridor. For Central Maine Power. 2012.
- **Archaeological Testing of Site 12.68, Gorham, Maine.** Excavated 11.0 m² of a Precontact archaeological site to evaluate its eligibility for the National Register. For Central Maine Power. 2012.
- **Data Recovery of Site 7.48, Hollis, Maine.** Excavated 30 m² of a deeply stratified site along the Saco River containing cultural components dating from the Early Archaic through the Late Ceramic periods. For NextEra Energy Resources. 2011-2012.
- **Data Recovery of Site NPP5, Grand Island, New York (with James Clark and Karen Mack).** Excavated 100 m² of large site along the Niagara River. Site contained multiple cultural components dating from the Late Archaic through the Late Woodland period with a significant presence of artifacts and features dating to the Early Woodland Meadowood Phase. For New York Power Authority. 2011.
- **Archaeological Survey and Testing of the Alabama Ledge Windfarm Project, Genesee County, New York.** Surveyed approximately 30 acres along redesigned portions of proposed windfarm and conducted testing at 17 sites. For Horizon Wind Energy, LLC. 2010.
- **Data Recovery of Site 7.52, Hollis, Maine.** Excavated 30 m² of this deeply stratified along the Saco River containing multiple cultural components dating from the Early Archaic through the Middle Ceramic periods. For NextEra Energy Resources. 2010.
- **Data Recovery of Site 7.55, Hollis, Maine.** Excavated 30 m² of a Late Paleindian component buried in a deeply stratified setting along the Saco River. For NextEra Energy Resources. 2010.
- **Archaeological Survey of the Proposed Barrel Cove Subdivision, York, Maine.** Surveyed a 45-acre parcel. For DLJ Corporation. 2010.
- **Data Recovery of the Little Ossipee South Site (7.9), Limington, Maine.** Excavated 25 m² of this deeply stratified site along the Saco River containing cultural components dating from the Early Archaic through the Ceramic period. For Florida Power and Light Energy Maine Hydro LLC. 2009.
- **Archaeological Survey of the Record Hill Project, Oxford County, Maine.** Surveyed a proposed 8-mile transmission line. For Central Maine Power. 2009.
- **Archaeological Survey and Testing of the Fort Halifax Hydroelectric Project (FERC No. 2552), Kennebec County, Maine.** Surveyed a 5-mile section of the Sebasticook River and conducted testing at 11 sites to evaluate their eligibility for the National Register. For Florida Power and Light Energy Maine Hydro LLC. 2008.
- **Archaeological Survey, Portland International Jet Port, South Portland, Maine.** Developed and implemented a survey strategy for Precontact archaeological resources on a 500-acre parcel of land along the Fore River in anticipation of developments by the Portland Jet Port. 2005
- **Data Recovery of Site 121.52b, Millinocket, Maine.** Excavated 90 m² of a multi-component site containing Precontact cultural components dating from the Late Archaic through the Late Ceramic periods, as well as a 19th century logging camp. For Great Lakes Hydro America LLC. 2004.
- **Archaeological Assessment/Survey of the US-VISIT Project, Maine and New Hampshire.** Provided archaeological sensitivity assessments and conducted surveys at 15 border stations in anticipation of developments by the Homeland Security Agency. For Michael Baker Corporation. 2003-2004.
- **Archaeological Survey and Testing of the Bar Mills Project (FERC 2194), York County, Maine.** Surveyed a 6-mile section of the Saco River as part of a hydroelectric

license application and conducted testing at 9 Precontact archaeological sites to evaluate their eligibility for the National Register. For Florida Power and Light, Maine Hydro LLC. 2002-2004.

- **Archaeological Testing of Site 23.25, Poland, Maine.** Excavated 30 m² at this Paleoindian site to evaluate eligibility for the National Register. For Morse Brothers, Inc. 1999.

Mid-Atlantic

- **Archaeological Survey/Testing of the Brister-Gainesville 230kV Transmission Line, Fauquier and Prince William Counties, Virginia.** Surveyed a proposed 16-mile upgrade to this existing transmission line corridor and tested known archaeological resources within the proposed upgrade. For Dominion Power. 2008.
- **Archaeological Survey of the Leesville Development (FERC No. 2210), Bedford, Campbell, and Pittsylvania counties, Virginia.** Surveyed 100 miles of shoreline along the perimeter of the Leesville Reservoir as part of a hydroelectric license application. For Appalachian Power. 2008
- **Trail 500kV Project, Pennsylvania, West Virginia, Maryland, and Virginia.** Participated as a consultant in identifying a corridor with the least environmental impact in preparation for a proposed 200-mile transmission line from southwestern Pennsylvania to northwest Virginia. For Alleghany Power. 2007
- **Archaeological Survey/Testing of the Potomac Expansion Project, Pittsylvania, Campbell, and Fairfax Counties, Virginia.** Surveyed a proposed 20-mile section of this proposed gas pipeline and tested archaeological sites to evaluate their eligibility for the National Register. For TRANSCO. 2005-2006.

Midwest

- **Archaeological Survey of the REX-East Pipeline Project, Shelby, Decatur, and Franklin Counties, Indiana.** Surveyed a 100-mile section of this proposed gas pipeline. For Kinder-Morgan. 2007.

Southeast

- **Archaeological Survey of the Nickajack Hydroelectric Project, Marion County, Tennessee.** Surveyed 22 miles of shoreline along the Tennessee and Sesquatchie Rivers (Guntersville Reservoir). For Tennessee Valley Authority. 2008.

PROFESSIONAL REGISTRATIONS/CERTIFICATIONS

- List of Approved Archaeologists, Maine Archaeological Advisory Committee, 2005-present
- Register of Professional Archaeologists (RPA)- [renewal in process]

PROFESSIONAL TRAINING

- 40 Hour Hazwopper, 29 CFR 1910.120(e), 2007
- American Battlefield Protection Program (ABPP), Fredericksburg, VA, 2006
- Section 106: An Introduction, Great Falls, VA, 2006
- University of Oregon Geology Field School, Clarno and Baker Counties, OR, 1993
- University of Oregon Archaeology/Geomorphology Field School, Fort Rock Basin, OR, 1992
