Timothy J. Roberts, MA, RPA		Archaeologist, Mid-Level	
<p>NPS Professional Qualification:</p> <ul style="list-style-type: none"> • Archaeologist <p>Email: tjroberts@crai-ky.com</p> <p>Registered Professional Archaeologist ID: 43700453</p>	<p>Specific Duties:</p> <ul style="list-style-type: none"> • Fieldwork Supervision • Report Writing/Editing • Proposal Development • Business Development 	<p>Education and Training:</p> <p>M.A., Anthropology, University of Wisconsin-Madison</p> <p>B.A., Anthropology, Florida State University</p>	
Experience Summary Information			
<p>Staff Archaeologist II/ Principal Investigator</p> <p>Cultural Resource Analysts, Inc. May 2017 – present</p>	<p>Archaeologist</p> <p>Southeast Archeological Center, National Park Service 2012–2017</p>	<p>Project Archaeologist</p> <p>SWCA Environmental Consultants 2010–2012</p>	
<p>Mr. Roberts is responsible for archaeological fieldwork direction, investigation, interpretation, and evaluation; preparing scopes of work and budgets; technical report writing and editing; and assisting with business development, marketing and new business capture. He has participated in and led archaeological projects on behalf of Federal agencies, State Historic Preservation Offices, and private sector clients and interest groups in the upper Midwest, Texas, throughout the southeastern United States, and internationally in Russia and Hungary. Just prior to joining CRA, Mr. Roberts served as an Archeologist for the National Park Service’s (NPS) Southeast Archeological Center (SEAC) in the Archeological Investigations and Compliance (AIC), and the Regionwide Archeological Survey Program (RASP) sections. His responsibilities included reviewing Planning, Environment, and Public Comment (PEPC) documents, assisting NPS resource managers throughout the Southeast region in developing Project Management Information System proposals, evaluating development projects, and budgeting and scoping mitigation strategies for potential adverse effects to cultural resources. He has led and assisted crews in all phases of archeological fieldwork at national parks throughout the Southeast, having personally worked in 20 different units, for interpretive program development and facilitating compliance with the National Historic Preservation Act (NHPA), Native American Graves Protection and Repatriation Act (NAGPRA), Archaeological Resource Protection Act (ARPA), and other specific NPS management policies and planning guidelines. He has assisted in generating and processing soil chemistry, geophysical, and remote sensing data and artifact analysis. He has represented NPS at public and professional outreach events and developed multimedia outreach materials to promote public awareness and interest in cultural resources. Mr. Roberts is also a ESRI-certified ArcGIS 10.3 Technical Desktop Associate and versed in the application of geospatial information systems to archaeological analysis, interpretation, and presentation using ESRI’s ArcGIS software suite.</p>			
<p>SELECTED PROJECTS</p> <p>Mid-Atlantic</p> <ul style="list-style-type: none"> ▪ Blue Ridge Parkway Archeological Overview and Assessment, North Carolina and Virginia. Archeologist and Report Co-Author for Section 110 review of all known historic and archeological resources managed by Blue Ridge Parkway (NPS). Conducted extensive background research, prehistoric and historic site condition assessments, and 			

cemetery relocation and mapping in the field. Authored majority of the final document.

- **Richmond District Stream Restoration & Outfall Stabilization, Chesterfield County, Virginia.** Principal Investigator and Report Co-Author for a 29-acre Phase I archaeological survey including the reinvestigation of a NRHP-eligible prehistoric site for Virginia Department of Transportation.
- **Archaeological Survey of the Interstate 81 and Route 75 Ramp Access Improvements Project in Washington County.** Principal Investigator and Report Co-Author for the surveyed of approximately 74 acres for expansion existing corridor and acquisition of new corridor in Abingdon, Washington County, Virginia. For Virginia Department of Transportation.
- **Archaeological Resources Survey Associated with the Reconstruction of the Intersection of Route 460 with Route 307 in Prince Edward County, Virginia.** Principal Investigator and Report Author for Phase I survey and metal detecting survey of approximately 7 acres. For Virginia Department of Transportation.
- **I-95 Fredericksburg Extension Study.** Principal Investigator and Report Co-Author for Phase I survey of associated with the expansion of express lanes along the I095 corridor in Stafford County, Virginia. For Virginia Department of Transportation.

Midwest

- **Proposed Relocation of S.T.H. 64 on the Northwest Side of the City of Antigo, Langlade County, Wisconsin.** Archaeological Technician for Wisconsin State Historical Society-Museum Archaeology Program Phase I archaeological survey on behalf of the Wisconsin Department of Transportation.
- **Non-Invasive Investigation of the Historical Wayside U.S. Hwy 2 Cemetery (BAS-0025) in Ashland County, Wisconsin.** Archaeological Technician for pedestrian survey and GPS mapping at Bad River Reservation tribal cemetery by Wisconsin State Historical Society-Museum Archaeology Program.

Southeast

- **Developments at Abraham Lincoln National Historical Park, Boyhood Home Unit, LaRue County, KY.** Principal Investigator and Report Author for archeological monitoring and Phase II excavations associated with a series of intensive and extensive ground-disturbing infrastructural developments at the Knob Creek/Boyhood Home unit of Abraham Lincoln National Historical Park.
