**Experience Summary Information**

<p><b>Principal Investigator</b></p> <p>Cultural Resource Analysts, Inc. 2019–present</p>	<p><b>Principal Investigator</b></p> <p>Gray &amp; Pape, Inc. 2012–2017</p>	<p><b>Archaeologist, Historic Materials Specialist</b></p> <p>Kentucky Archaeological Survey 2002–2008</p>
---	---	--

**Mr. Mabelitini** is one of a team of full-time survey and excavation personnel. His duties encompass all aspects of seeing these projects through to completion. These responsibilities include fieldwork, laboratory analysis, and final report preparation. He is experienced in Historic and Prehistoric Archaeology and has acted as Principal Investigator and/or for projects in Kentucky, Ohio, Indiana, Virginia, Pennsylvania, South Dakota, West Virginia, South Carolina, Georgia, Florida, Alabama, Maine, New York, and New Jersey. He has presented papers and chaired sessions at regional and national conferences, and has published in refereed volumes.

**Experience and Expertise:**

- Historical archaeology
- Battlefield/Conflict archaeology
- Archival Research
- Artifact Conservation
- Cemetery Documentation and Conservation
- Material culture studies

**Education:**

**Doctor of Philosophy, Anthropology: Historical Archaeology**  
**University of South Carolina, Columbia, South Carolina, ABD**

Studied discipline-wide anthropological theories and practices. Dissertation: “British Military Adaptation to the South Carolina Backcountry: Archaeological Perspectives on Landscape.”

**Master of Arts, Anthropology: Historical Archaeology**  
**University of West Florida, Pensacola, Florida December 2011**

Studied discipline-wide anthropological theories and practices, as well as field methods, analytic procedures, and theories specific to historic archaeology. Thesis: “The Hammock Landing Battery and the Confederate Defenses of the Apalachicola River, Florida.”

**Bachelor of Arts, Anthropology**  
**University of Kentucky, Lexington, Kentucky May 2005**

Studied anthropology from the traditional four-field perspective.

## Archaeological Field Experience Highlights:

- **Natural Resources Group, LLC, Williams and Boardwalk Pipeline Partners, Bluegrass Pipeline Project-Northeast, Kentucky**

Project Manager and Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources within the area of potential effect for a planned natural gas liquids (NGLs) pipeline system across Bracken, Pendleton, Harrison, Grant, Scott, Owen, Franklin, Woodford, Anderson, Nelson, Larue, Hardin, and Breckenridge Counties, Kentucky. Managed, budgeting and scope, developed predictive model, supervised cultural resource work, authored technical report, and coordinated with industry and client representatives, land agents, and state and federal agencies.

- **CH2M HILL Engineers, Inc. (Jacobs) and Arcadis U.S., Inc., Columbia Gas Transmission, LLC, B-System Project (Line B-105, B-111, Line K-270, Line B-121, and Line B-130), Ohio**

Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources within the area of potential effect for planned natural gas pipeline system upgrades across Fairfield and Franklin Counties, Ohio. Supervised cultural resource work, authored technical reports, and coordinated with state and federal agencies.

- **Perennial Environmental Services, LLC, and Dakota Access, LLC, Dakota Access Pipeline Project, South Dakota**

Co-Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources within the area of potential effect for planned oil pipeline system across Campbell, McPherson, Edmunds, Faulk, Spink, Beadle, Kingsbury, Miner, Lake, McCook, Minnehaha, Turner, and Lincoln Counties, South Dakota. Supervised cultural resource work and assisted with the technical report.

- **CH2M HILL Engineers, Inc. (Jacobs) and Arcadis U.S., Inc., Columbia Gas Transmission, LLC, E-Systems Project (E-Loop, EM2, EM7, and EKY), Kentucky**

Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources and Phase II archaeological testing and National Register evaluation of seven sites for planned natural gas pipeline upgrades at different locations along the Columbia Gas Pipeline in Bath, Bracken, Menifee, Montgomery, Nicholas, and Robertson Counties, Kentucky. Supervised cultural resource work, data analysis, authored technical reports, and coordinated with state and federal agencies.

- **CH2M HILL Engineers, Inc. (Jacobs) and Arcadis U.S., Inc., Columbia Gas Transmission, LLC, R-System Loop Extension Project (R-501 Replacement and Line K2B Jumper), Ohio**

Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned natural gas pipeline upgrades at different locations in Lawrence, Gallia, and Jackson Counties, Ohio. Supervised cultural resource work, data analysis, authored technical reports, and coordinated with state and federal agencies.

- **POWER Engineers, Inc., Columbia Gas Transmission, LLC, R-501-South Replacement Project, Ohio**

Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned natural gas pipeline upgrades at different locations across Vinton, Jackson, Gallia, and Lawrence Counties, Ohio. Supervised cultural resource work, data analysis, authored technical report, and coordinated with state and federal agencies.

- **Tetra Tech, Inc., Sunoco Pipeline, L.P., Pennsylvania Pipeline Project (PPP), Pennsylvania**

Principal Investigator for Phase II archaeological testing and National Register evaluation at 22 sites and survey of a Revolutionary War battlefield at different locations along a proposed natural gas liquid (NGL) pipeline to in Westmoreland, Cambria, Blair, Huntingdon, Juniata, Lebanon, Lancaster, Berks, and Chester Counties, Pennsylvania. Supervised cultural resource work, data analysis, authored technical reports, and coordinated with state and federal agencies.

- **Civil and Engineering Consultants, Inc., Williams Field Services, LLC, Harding Pipeline Project, Pennsylvania**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned pipeline upgrades in Susquehanna County, Pennsylvania. Supervised cultural resource work, data analysis, conducted archival research, authored technical report, and coordinated with state and federal agencies.
- **CH2M HILL Engineers, Inc. (Jacobs), Columbia Gas Transmission, LLC, MarkWest Pipeline Relocation Project, West Virginia and Pennsylvania**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned natural gas pipeline across Marshall County, West Virginia, and Greene and Washington Counties, Pennsylvania. Supervised cultural resource work, data analysis, and authored technical reports.
- **Natural Resource Group, LLC, Millennium Pipeline Company, LLC, Hancock Compressor Project, New York**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for a proposed compressor station along the Millennium Pipeline in Delaware County, New York. Supervised cultural resource work, data analysis, and authored technical report.
- **Civil and Engineering Consultants, Inc., Williams Field Services, LLC, Hickman-Utica Well Connect Project, West Virginia**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned pipeline upgrades in Ohio County, West Virginia. Supervised cultural resource work, data analysis, conducted archival research, authored technical report, and coordinated with state and federal agencies.
- **USDA Natural Resources Conservation Service, Anderson Wetland Reserve Enhancement Program Easement, Kentucky**  
Principal Investigator for Phase I cultural resources survey conducted to identify archaeological and historic architectural resources within a planned wetland restoration and enhancement easement in Fulton County, Kentucky. Supervised fieldwork and data analysis, authored technical report, and coordinated with state and federal agencies.
- **USDA Natural Resources Conservation Service, Cummins Wetland Reserve Enhancement Program Easement, Kentucky**  
Principal Investigator for Phase I cultural resources survey conducted to identify archaeological and historic architectural resources within a planned wetland restoration and enhancement easement in Ballard County, Kentucky. Supervised fieldwork and data analysis, authored technical report, and coordinated with state and federal agencies.
- **USDA Natural Resources Conservation Service, Hack and Haskins Wetland Reserve Enhancement Program Easement, Kentucky**  
Principal Investigator for Phase I cultural resources survey conducted to identify archaeological and historic architectural resources within a planned wetland restoration and enhancement easement in McCracken County, Kentucky. Supervised fieldwork and data analysis, authored technical report, and coordinated with state and federal agencies.
- **USDA Natural Resources Conservation Service, Redden Wetland Reserve Enhancement Program Easement, Kentucky**  
Principal Investigator for Phase I cultural resources survey conducted to identify archaeological and historic architectural resources within a planned wetland restoration and enhancement easement in Marshall County, Kentucky. Supervised fieldwork and data analysis, authored technical report, and coordinated with state and federal agencies.
- **USDA Natural Resources Conservation Service, Tony Thompson Wetland Reserve Enhancement Program Easement, Kentucky**  
Principal Investigator for Phase I cultural resources survey conducted to identify archaeological and historic architectural resources within a planned wetland restoration and enhancement easement in Livingston County, Kentucky. Supervised fieldwork and data analysis, authored technical report, and coordinated with state and federal agencies.

- **Martin Environmental Solutions, Inc., AT&T Monopole Telecommunications Structure R1731, Virginia**  
Principal Investigator for Phase I cultural resources survey conducted to identify archaeological and historic architectural resources within the area of potential effect for a telecommunications monopole site in Chesterfield County, Virginia. Supervised fieldwork and data analysis, documented historic cemetery, and authored technical report, and coordinated with state and federal agencies.
- **CH2M HILL Engineers, Inc. (Jacobs), FirstEnergy Hayes-West Fremont Transmission Line Project, Ohio**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources in the area of potential effect for a planned transmission line corridor across Erie and Sandusky Counties, Ohio. Supervised cultural resource work, data analysis, and authored technical report.
- **Schutt-Lookabill Company, Inc., Washington Street Corridor, City of Irvington Streetscape Project, Indiana**  
Principal Investigator for Phase I cultural resources survey and archaeological monitoring for planned road improvements in the City of Irvington, Marion County, Indiana. Supervised cultural resource work, data analysis, and authored technical report.
- **City of Cincinnati, Metropolitan Sewer District of Greater Cincinnati, Lick Run Valley Conveyance System Project, Ohio**  
Principal Investigator for Phase I/II archaeological investigations for improvements to the Lick Run impoundment system. Supervised cultural resource work, developed mitigation plan, authored technical reports, and coordinated with local and state agencies.
- **HULL and Associates, Inc., Noble Road Landfill Project, Ohio**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned landfill in Richland County, Ohio. Supervised cultural resource work, data analysis, and authored technical report.
- **Bath Iron Works, South Hyde Assembly Building Project, Maine**  
Principal Investigator for archaeological monitoring for planned assembly building construction at Bath Iron Works in Sagadahoc, Maine. Supervised cultural resource work and conducted data analysis.
- **HRA Gray & Pape, CN Cell Towers Project, Kentucky and Illinois**  
Principal Investigator for Phase I cultural resources survey for proposed cell tower locations across Western Kentucky and Central Illinois. Assisted with historic architectural survey.
- **Parsons, Inc., Carmel Drive and Rangeline Road Roundabout Project, Indiana**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned road improvements in Hamilton County, Indiana. Supervised cultural resource work, data analysis, and authored technical reports.
- **FLUOR – BWXT Portsmouth, LLC, Portsmouth Gaseous Diffusion Plant Project, Ohio**  
Principal Investigator for preparation of a comprehensive NHPA summary report for the Portsmouth Gaseous Diffusion Plant in Piketon County, Ohio. Conducted literature review and archival research, and contributed to the technical reports.
- **HULL and Associates, Inc., Dilles Bottom Development Project, Ohio**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned development project in Belmont County, Ohio. Supervised cultural resource work, data analysis, and authored technical report.
- **CH2M HILL Engineers, Inc. (Jacobs), Fort A.P. Hill Equipment Concentration Site Project, Virginia**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned equipment concentration site on the Fort A.P. Hill, U.S. Army Reserve in Carolina County, Virginia. Supervised cultural resource work, data analysis, and authored technical report.
- **Pond and Company, U.S. Army Corps of Engineers, Fort Norfolk Cultural Resources Maintenance and Restoration Project, Virginia**  
Principal Investigator for Phase I and II-level cultural archaeological investigations within historic Fort Norfolk in Norfolk, Virginia. Supervised fieldwork, data analysis, and authored technical report.
- **City of Petersburg, Jarratt House Historic Structures Report and Archaeological Survey**

### **Project, Virginia**

Principal Investigator for Phase I archaeological survey at selected locations within the historic community of Pocahontas, in the Pocahontas Island Historic District, City of Petersburg, Virginia. Supervised cultural resource work, data analysis, and authored technical report.

- **Lock 7 Hydro Partners, Kentucky Locks and Dams 12 and 14 Project, Kentucky**  
Principal Investigator for Phase I cultural resources survey to identify archaeological resources for planned demolition and removal of lock-tender houses and outbuildings at two locations in Lee and Estill Counties, Kentucky. Supervised cultural resource work, data analysis, and authored technical reports.
- **Chambers, Murphy, and Burge, Massillon State Hospital Grounds Project, Ohio**  
Principal Investigator for a preliminary archaeological assessment of demolished buildings on the grounds of the Massillon State Hospital (formerly known as Eastern Ohio Asylum for the Insane) in Stark County, Ohio. Supervised cultural resource work, data analysis, and authored technical report.
- **Center City Development Corporation (3CDC), Cincinnati Music Hall Renovation Project, Ohio**  
Principal Investigator for archaeological monitoring of unmarked burials at Cincinnati Music Hall (former location of a public cemetery) in Hamilton County, Ohio. Supervised cultural resource work, data analysis, and authored technical report.
- **Strand Associates, Inc., Quebec Heights Sewer Separation and Rehabilitation Project, Ohio**  
Principal Investigator for Phase I cultural resources survey to identify archaeological and historic architectural resources for planned improvements to sewage system in the City of Cincinnati, Hamilton County, Ohio. Supervised cultural resource work, data analysis, and authored technical report.
- **Ohio History Connection, Rev. John Rankin House National Landmark and State Memorial Project, Ohio**  
Principal Investigator for Phase III-level archaeological data collection to locate, document, and evaluate the detached kitchen and associated outbuildings for restoration of the Rankin House (33BR172) grounds. Supervised cultural resource work, conducted archival research, data analysis, and authored technical report.
- **Dayton Power and Light Company, Inc., J.M. Stuart Station Elk Run Tract 1 Mitigation Project, Ohio**  
Principal Investigator for Phase III archaeological investigation of Site 33AD57 on the Ohio River floodplain in Adams County, Ohio. Supervised cultural resource work, data analysis, and contributed to technical report.
- **Kentucky Transportation Cabinet, Kentucky Archaeological Survey, US 27 Cynthiana Bypass Project, Kentucky**  
Co-supervisor of Phase III-level archaeological mitigation of Site 15HR42 for road improvements. Supervised fieldwork, conducted archival research and data analysis, co-authored project report.
- **National Park Service – Southeast Archaeological Center, South Carolina Institute of Archaeology and Anthropology, Ninety Six National Historic Site British Star Fort Project, South Carolina**  
Co-director of Phase III-level archaeological investigations of Site 38GN3, the British Star Fort and the Battle of Ninety Six; Site 38GN1, Gouedy’s Trading Post and Fort Ninety Six. Supervised fieldwork, conducted archival research and data analysis, authored project reports.
- **Florida Park Service, Florida Public Archaeology Network, Hammock Landing Battery Project, Florida**  
Director of Phase III-level archaeological investigations of Site 8LI334, a Civil War-period artillery battery. Supervised fieldwork, conducted archival research and data analysis, authored project report.
- **Boone County Historical Society, Craig-Ewalt House and Cemetery Project, Kentucky**  
Director of Phase I-level archaeological survey, documentation, and evaluation of nineteenth-century log residence and associated cemetery in the East Bend area of Boone County, Kentucky. Supervised fieldwork, conducted archival research and data analysis, authored project report.

**Specialized training:**

- Section 106 Training, Ohio Department of Transportation, Office of Environmental Services,

2011

- OSHA 10 Hour Construction Industry Outreach Training Program, 2019
- Section 106: Essentials (ACHP), 2012
- Advanced Metal Detecting for Archaeologists (AMDA) certification, 2016
- Section 106 Advanced Topics: Consulting on Complex Undertakings, Ohio Historic Preservation Office, October 2007
- OSHA Competent Person: Excavation, Trenching, and Shoring
- OSHA Health and Safety Compliance Training - annual
- Adult CPR, First Aid, and Bloodborne Pathogens
- CITI Program Certification in Human Research, 2019

**Awards and Honors:**

- Kentucky Historical Society, Brig. Gen. William R. Buster Award for Military History, 2017
- Boone County (Kentucky) Historic Preservation Review Board Project Award, 2016

**Professional Memberships:**

- Society for Historical Archaeology
- Southeastern Archaeological Conference
- Council for Northeast Historical Archaeology
- Register of Professional Archaeologists
- Kentucky Organization of Professional Archaeologists, Board of Directors 2016-2019
- Ohio Archaeological Council
- Florida Anthropological Society
