<p>Chelsey Johnson is an architectural historian with experience in archival research, documentary fieldwork, and oral history. She is highly skilled in research, writing and qualitative and quantitative analysis methods, bringing a diverse professional and educational background to complement her training in historic preservation. As an architectural historian at CRA, Chelsey’s responsibilities include researching and documenting historic properties by conducting archival research and field surveys, evaluating the significance of historic properties, and preparing written reports that provide summary findings and recommendations.</p> <p>Chelsey holds Master of Arts degrees in History and Appalachian Studies from Appalachian State University. Her graduate research focused on the material culture and vernacular architecture of Appalachia, as well as historic and contemporary folk traditions and foodways of the region. She has conducted a variety of independent preservation research and documentation projects, including work on a National Register of Historic Places Historic District nomination for what is thought to be the earliest International Style development in the region.</p> <p><b>Additional Training:</b></p> <ul style="list-style-type: none"> <li><b>North Carolina Historic Preservation Office: Consultant’s Workshop</b>, November 2022.</li> <li><b>Advisory Council on Historic Preservation: Section 106 Essentials</b>, September 2022.</li> <li><b>Red Cross Bloodborne Pathogens Training</b>, October 2022.</li> <li><b>Adult First Aid, CPR, and AED</b>, August 2021.</li> </ul> <p><b>Recent Projects:</b></p> <ul style="list-style-type: none"> <li><b>Historic Architecture Assessment and Effects Assessment for the Proposed Signal Mountain Repeater Station Retirement, Hamilton County, TN.</b> Lead Architectural Historian tasked with surveying resources, evaluating NRHP eligibility and potential effect, and authoring report.
