Experience Summary Information

Director of Operations	Archaeologist	Historic Interpreter
Cultural Resource Analysts, Inc. 2011 – present	Southeastern Archaeological Research, Inc., 2007-2011	NC Department of Cultural Resources, 2006-2007

Mr. Hurdle is the Director of Tennessee Operations and has overseen business development and project management since 2011. He has two decades of practical experience in the field of cultural resource management. His responsibilities include marketing, client retention, proposal development, report preparation, and project management. Travis has supervised, excavated, and documented hundreds of archaeological sites concentrated in the southeastern United States. His field experience has included reconnaissance level surveys, site evaluations, and data recoveries. He has successfully managed multi-million dollar projects and has a thorough understanding of both state and federal agency requirements.
