Jesse Wright	Director of Information	
Availability: Immediate **Email:** jwright@crai-ky.com	**Specific Duties:** • IT and Data management • GIS specialist • CAD • Database Solutions Developer	**Education and Training:** MCSE - Central Kentucky Technical College, Lexington, Kentucky

Experience Summary Information		
Director of Information Cultural Resource Analysts, Inc. 2001 – present	**GIS/CADD Specialist** Cultural Resource Analysts, Inc. 2001 - present	**Database Solutions Developer** Cultural Resource Analysts, Inc. 2005 - present

With 16 years of CAD experience and Microsoft Certified Systems Engineer training. **Mr. Wright** joined CRA in 2001 to provides specialized CAD and GIS expertise for CRA map production, using Autodesk CAD platforms, ArcMap, and MicroStation.

Mr. Wright currently serves as the Director of Information Technology, and primary Database Solutions Developer. His duties include managing the corporate network, Domain and Terminal servers, and the Branch Office Virtual Private Network (BOVPN); spanning multiple servers in branch offices across the country. As IT Director, Mr. Wright also serves as the help desk to all nine CRA offices, offering on call support for all software, hardware, and repair needs.

As a database developer, Mr. Wright has spent the past five years using FileMaker to develop a corporate database solution to track projects and budget data through fieldwork, report writing, and to final report publication. Facilitating staff efficiency by capitalizing on FileMaker's scripting engine, he has been able to automate repetitive work such as sending out project status emails, statistical reporting, digital form submission, and data validation. Jesse has built numerous web-based applications in HTML, ASP, and PHP, as well as both intraoffice and public web-sites for CRA; and continues to update and develop as technologies improve.
