<b>Current Position</b>	<b>Past Field Technician Positions</b>	<b>Archaeological Field School</b>	
Cultural Resource Analysts, Inc. March 2023–present	RK&K: July–August 2022  All Phases Archaeology: September 2022–January 2023  TerraXplorations, Inc.: January–February 2023	Cannon's Point Preserve in St. Simon's Island, Georgia May–July 2022	
<p>Ms. Hoefler is a field technician at Cultural Resource Analysts, Inc. in the Lexington, KY office. Before field school, she volunteered at the East Tennessee State University (ETSU) Valleybrook Archaeological Laboratory assisting in counting and curating artifacts from past projects carried out through ETSU's archaeology department. She participated in a Phase II excavation at her field school which unearthed both historic and prehistoric artifacts. She also assisted in the Valleybrook Archaeological Lab after field school to clean, count, and curate the artifacts found at Cannon's Point. Since July, Ms. Hoefler has worked throughout the Southeast, predominately in Mississippi and Louisiana.</p> <p><b>Projects:</b></p> <ul style="list-style-type: none"> <li>Field Technician on a Phase I survey in Waverly, Tennessee – RK&amp;K, 2022</li> <li>Field Technician on a Phase I survey and Phase II excavation in Moncure, North Carolina – RK&amp;K, 2022</li> <li>Field Technician on a Phase II excavation in Saraland, Alabama - All Phases Archaeology, 2022</li> <li>Field Technician on two Phase I surveys in Alabama – All Phases Archaeology, 2022</li> <li>Field Technician on six Phase I surveys in Mississippi – All Phases Archaeology, 2022</li> <li>Field Technician on three Phase I surveys in Louisiana – All Phases Archaeology, 2022 - 2023</li> <li>Field Technician on a Phase I survey ranging from Jefferson, Texas to Superior, Louisiana – TerraXplorations, Inc., 2023</li> </ul> <p><b>Additional Experience in:</b></p> <ul style="list-style-type: none"> <li>General Artifact Cleaning, Sorting, and Cataloging</li> <li>General Phase I Survey Methods such as Shovel Testing, Pedestrian Survey, and Soil Profiling</li> <li>General Phase II Excavation Methods such as Mapmaking and Munsell Soil Classification</li> </ul>
